## Garden Rules

## Gardening Tips

The Yolo community gardens are dedicated to creating community, growing friendships and helping those that want to learn how to garden. We are focused on serving the greater Yolo area and offer plots of land for gardeners to transform into beautiful works of art.

The community garden seeks to provide land, water and community to the Yolo county. We offer classes on how to take care of your garden, and our team offers support for new gardeners. No question is turned away! We offer green pesticides that are safe for the natural environment.

We offer monthly events for families and individuals focused on education and community. In the summer we also teach a weekly class on the natural wildlife of the area that accepts donations. Every month we offer a weekly bring your own food picnic, so people in the community can get to know others. And be sure to visit our weekly brunches on Thursdays!

## Plant of the Month

### January

# Join the Community Gardening Network!

Connect with fellow gardening enthusiasts to exchange seeds, tips, and resources. Together, we can cultivate a thriving community!

# Gardening Community Questions

Your Queries, Answered!

What is the Community Gardening Network?

How can I share my gardening tips?

You can share your gardening tips by joining our online forums. Post your advice, photos, and experiences to inspire fellow gardeners. Our community thrives on shared knowledge and practical insights.

What resources are available for new gardeners?

We provide a wealth of resources for new gardeners, including tutorials, seed exchanges, and expert articles. Our community members also share their favorite tools and techniques to help you get started.

How do I connect with other gardeners?

Connecting with other gardeners is easy! You can join local meetups, participate in online discussions, or engage in seed exchanges through our platform. Building relationships has never been more rewarding.
